Student Executive Council

One day you will open this book, and it shall tell the story of one year caught in time. There will be those who you knew, and times you enjoyed, that only a smile will be able to express. Who were you when all the others were around? Where were you going when all the others have gone? Together for one year, you will realize that you will never be together again. Franklin Senior High School, the moment you will never forget.

And so ends the Balloon fight.

Senior Class had a winning float.

We've run over dusty roadways and through your rotten grapes to this stick-in-the-mud-hicktown wind community with its outhouse called Lodi High, to tell you raisin-making-farmboys a few things you should know. First, our football team wants your football team to take a bath before they come to the game. After plowing all that manure and fertilizer all day, your underarms are more effective than any of your linemen. And while you're at it, get the rest of your school to take a bath too. We originally wanted to have the game in Lodi so that we wouldn't have to allow you Gallo-Guzzlers to come and dirty up our stadium, but your principal promised us that your school would give the stadium a good wash job after the game so we decided to let you country boys see the Big City. We've decided to let our Fifth String team play your pussyfoot plowboys. It's our part in "Be Kind To Moron's Week", because we heard that your halfbacks are always taking their brains out and playing with them. The last point we have is this: Our mighty basketball team is better than yours. Our powerful baseball team is better than yours. Our track, cross-country, swimming, and tennis team is better than yours. Our speech team, cheerleaders, and student leaders are better than yours. Our teachers, our golf team, and even our janitors are better than your massive, block-busting bunch of raisin' rustlers. In view of this, we don't even know why you're gonna come to the game.

Sincerely,
George Knapp

The Devil Made Us Do It!

Mr. Fruett, Advisor

The End

The school year 1970-71 has meant different things to each of us. To me it has been what last year's editor willed to me: "all the heartaches, headaches, sleepless nights, and all the Excedrin Compound it takes to be an editor."

In this yearbook I have tried to capture most of the fond memories of this school year. It has not been an easy job. It is a hard and thankless task that takes a lot of devotion. Now, I want to thank those diligent workers who were willing to come in after school, and give up weekends to complete this book.

Suzanne, this book would never have been finished without you, not only were you able to do things right the first time but you had the attitude it takes to be a yearbooker.

Larry, you did a great job on the sports section.

Marsha, you were a real friend in times when I felt the whole staff was against me.

Jeanette, thanks for keeping track of all the money.

Ralph, I can now safely say you are a pretty good photographer. Thank you for all the hours spent after school.

Mr. Fruett how did you like having a "Jewish Tamale" to practice your amateur psychology on?

Thank you office staff, teachers, and maintenance staff for bearing with me through this school year.

I am sure all of you have had your own share of "heartaches, and headaches," but as with me they are things of the past. In this yearbook are some of the fond memories of the 1970-71 school year.
